PEDAGOGY

Our teaching method is communicative and based on active participation by students. Professors use varied authentic documents and also create custom course materials. After each class, students have homework to do which is then corrected by their professor. Students therefore have an even written and oral level, allowing them to take official exams like the TEF, TCF, DELF or DALF.

For all of our programs:

- ⇒ Learning objectives are validated throughout the program via homework and regular exams
- ⇒ Cultural outings are included in the program
- ⇒ All pedagogical material is provided by the institute (there are no books to buy)

REGISTRATION PROCEDURE

Registration is not considered to be complete unless, **before 6 September 2019:**

- ⇒ A minimum of one trimester of classes + administrative fees have been paid in full
- ⇒ The student has taken the placement test (an online test sent by email to the student once payment has been made)
- ⇒ After this date, registrations will be accepted depending on availability.

OPTIONAL PROGRAMS
