1 week:
1 070 €

Administrative fees:
80 €

Live & Learn France

Focus on photography workshops

The Workshops are designed for beginners, amateurs and photography students alike. The various workshops deal with all the major aspects of modern photography: theory and practice, from past to present.

Photojournalism- Documentary

This workshop presents the **different aspects of a photographic essay**: the construction on the long term of a story through pictures – the protagonists, the context, what is at stake.

Current techniques and tools of photojournalists will be discussed as well as how to contact publishers.

The training **includes practical exercises**.

Introduction to Studio Photography

In this practice-oriented workshop, participants are **introduced to the techniques of studio photography**: use of studio equipment, electronic flashes, basic studio lighting techniques, large format cameras, as well as the Stop System.

The course is based **on intensive studio practice**.

Introduction to Advertising Photography

This workshop is open to **participants with previous studio experience** (for example after the workshop "Introduction to Studio Photography").

Every day **a different commercial studio topic** is introduced:

- basic packshot,
- metal,
- glass,
- culinary,
- use of digital view cameras,
- etc.
